

Jianbin Chen, CFA

Los Angeles, CA | (951) 557-3798 | jianbinchen1991@gmail.com
linkedin.com/in/JianbinChen

Economics researcher with training in advanced econometrics, computer science, and finance, combining machine learning research with investment banking and assurance experience.

EDUCATION

University of California, Riverside

Ph.D. in Economics, Advanced Econometrics | Sep 2021 - Expected Jun 2027

M.S. in Computer Science | Sep 2023 - Jun 2026

M.A. in Economics | Awarded Dec 2023

Cumulative graduate GPA: 3.84/4.00 (May 2026 transcript)

Harbin Institute of Technology | Shenzhen, China

Master of Economics, Finance | Sep 2012 - Jul 2014

GPA: 3.61/4.00 | Rank: 1/24 | Outstanding Graduate, 2014

Shenzhen University | Shenzhen, China

B.S. in Information and Computing Science; Bachelor of Economics in Finance

Sep 2008 - Jun 2012 | GPA: 3.70/4.00 | Rank: 1/16

TECHNICAL SKILLS

Programming: Python, SQL (MySQL), VBA | Libraries: PyTorch, NumPy, pandas, scikit-learn

Methods: Econometrics, machine learning, deep learning, financial forecasting, valuation, algorithm design | Tools: Git, VS Code, Excel

PUBLICATION

CEO Turnover and Stock Price Reactions: Evidence from China. South China Finance, 2014(07), pp. 60-68.

HONORS

Outstanding Graduate, Harbin Institute of Technology, 2014 (one recipient in the major).

Outstanding Graduate, Shenzhen University, 2012 (top 5% in the major).

Shenzhen University top-prize scholarship, 2011 (top 1%).

Shenzhen University Tencent top-prize scholarship, 2010 (four recipients).

RESEARCH

Pricing Tail Risk by Structured Mixture Density Network

Job market paper

- Developed a structured mixture density network to distinguish microeconomic and macroeconomic channels in tail-risk pricing, outperforming comparison models in the study.

Does Y Combinator Lead Industry Booms? Evidence from Sentence Embedding and LLMs

Working paper

- Compared large language models and sentence embeddings for comparable-firm selection; LLM-based selection yielded stronger portfolio returns in the study.

Predicting Net Income with Deep Learning A Financial Forecasting Approach

Working paper

- Improved net-income prediction through deeper networks and model averaging; forecast-based portfolios outperformed the S&P 500 in the study, with greater accuracy associated with higher returns.

TECHNICAL PROJECTS

Machine Learning Implementation

- Implemented CNNs, variational autoencoders, multilayer perceptrons, random forests, K-means, and DBSCAN across image, diagnostic, and financial datasets.
- Applied SMOTE, feature selection, dimensionality reduction, and data augmentation; datasets included CIFAR-10, Wisconsin Breast Cancer Diagnostic, WRDS, and Kaggle datasets.

Algorithm Design

- Implemented and analyzed randomized and parallel algorithms, max-flow, approximation algorithms, bitmask dynamic programming, nearest-neighbor search, and computational geometry.
- Applied high-probability analysis to algorithm performance.

TEACHING DEVELOPMENT

University Teaching Certificate Program, UC Riverside

- Completed a two-quarter program covering inclusive teaching, active learning, curriculum design, and teaching philosophy; pedagogy coursework completed in Winter and Spring 2025.

PROFESSIONAL EXPERIENCE

Guosen Securities Company Limited | Shenzhen, China

Investment Manager, Investment Banking Department | Dec 2017 - Apr 2019

- Authored business and financial analysis sections of an IPO prospectus and conducted due diligence on suppliers, customers, employees, and transactions.
- Performed commercial due diligence and subsidiary valuation for an asset sale; supported buyer discussions, transaction scheduling, and regulatory documentation.
- Supported improvements to management and internal controls for the IPO of Lucky Harvest Co., Ltd. (002965.SZ).
- Worked on the sale of Shenzhen Sinoargi E-Commerce Co., Ltd., a subsidiary of Shenzhen Agricultural Products Group Co., Ltd. (000061.SZ).
- Applied discounted cash flow and comparable-company valuation methods.

Dongxing Securities Company Limited | Shenzhen, China

Investment Manager, Investment Banking Department | Feb 2017 - Nov 2017

- Supported IPO preparation for Dongguan Yutong Optical Technology Co., Ltd. (300790.SZ), including ownership structure, accounting treatment, financial reporting, and compliance.
- Worked with management on IPO timelines, listing-market comparisons, and capital-raising plans.

PwC Zhong Tian LLP | Shenzhen, China

Senior Associate, Audit | Oct 2014 - Feb 2017

- Automated audit workflows with VBA, including confirmation-document tracking and processing data from more than 1,000 subsidiaries.
- Analyzed revenue, expenses, cash, debt, receivables, payables, and inventory; investigated account movements and communicated findings to supervisors.
- Performed financial-statement audit and agreed-upon procedures engagements for listed companies, multinational corporations, and other entities.
- Collected data from multiple sources to support asset-depreciation testing and earnings forecasts.

CERTIFICATIONS

Chartered Financial Analyst (CFA) | Chinese CPA (CICPA) | 2018

Chinese Legal Professional Qualification Certificate | 2016

Associate Sponsor Representative | 2017

SELECTED COURSEWORK

UC Riverside: Machine Learning Fundamentals (A+), Machine Learning (A+), Data Mining Techniques (A), Advanced Algorithms (A+), Parallel Algorithms (A+), Scientific Computing (A), High Performance Computing (A+), GPU Architecture and Parallel Programming (A), Compiler Construction (A), Econometric Methods II (A+), Advanced Econometric Methods (A+).

Harbin Institute of Technology: Real and Complex Analysis (A+), Functional Analysis (A+), Mathematical Finance (A+), Applied Stochastic Processes (A), Advanced Economics (A), Game Theory (A), Econometrics (A+).

Shenzhen University: Mathematical Analysis, Advanced Algebra, Numerical Analysis, Ordinary Differential Equations, Computer Programming, Data Structures, Microeconomics, Macroeconomics, Financial Derivatives.
